

BWT bestclear EXTRA
best water technology

BWT
water + more

Optimised water for perfection in rinsing technology

- Efficient – maximum capacities in the smallest space thanks to High Efficiency Technology (HET)
- Reasonably priced – ideal for compact dishwashers
- Simple – quick, uncomplicated filter change

Top Technology

- 7-fold filtration – efficient full desalination
- Used vertically
- Bypass setting once directly on the filter head
- Automatic water stop when exchanging the filter
- Efficient limescale protection in cold water and hot water up to 65 °C
- One connection technique for all types and sizes of filter

BWT bestclear EXTRA filter cartridges

Today's customer has high expectations. They value quality, service and perfection, including the detail. Restaurateurs who take these demands seriously have an innovative tool available to them with rinsing technology in the filter system BWT bestclear EXTRA. Through its special design this water filter ensures that nothing can dry on the crockery, the glass or the cutlery during the drying process. The result is conclusive: spotlessly white crockery brilliant glasses and shining cutlery that make the place setting and ambience at the table perfect for the customer.

Customer benefits at a glance

- Removing particles, limescale and salts through 7-fold filtration
- No dried-on spots or smears
- Minimising detergent use
- Brilliantly shining crockery, glass and cutlery
- No need to polish
- Flawless foaming in sparkling wine and beer glasses

Configuration of a BWT bestclear EXTRA filter cartridge with 7-way filtration
